

## We are Racking System and Warehouse Equipment Manufacturer in China

TOCO® Warehouse Equipment Company is a professional metal products manufacturer in China since 2007. The products involve pallets racking, industrial shelving, shuttle systems, mezzanines, cantilever racks, pallets, warehouse storage containers, metal cages, stillages, etc. Each of our product features of sensible structure, stylish design, reliable quality, and high stability. They are widely used for storing or handling goods in supermarkets, logistics centers, warehouses, offices, libraries etc.

Since our establishment, we have devoted ourselves to providing high quality storage equipment for our customers at most competitive price. In order to accomplish this, we have taken a series of quality and cost control measures. For example, we use roll forming, CO2 gas shielding welding, anti-rusting, and other pre-treatment technology for manufacturing our products. We also provide special training for our staffs to help them master each manufacturing technique, thus improving production efficiency and saving on labor costs.

With these efforts, we have passed **ISO9001:2008** certification and all of our products comply with the **AS4084-2012** standard and FEM standard. This enables us to serve our customers in all of the markets around the world. For better services, we established a complete pre-sale and after-sale customer service system. We can offer small samples of different racking and shelving for free. If you have placed an order, we will provide with spare wearing parts. Moreover, all of our products are guaranteed for 5+ years lifetime, so you would feel secure while using TOCO products.

Furthermore, we also put a lot of attention on brand building and product innovation, training our researcher and development engineers. Now, our team is capable of designing a wide variety of stylish and practical storage systems for our customers. Any of your custom storage requests all can be satisfied.

We are located in Nanjing, an ancient city, which is only one and a half hours away by train from Shanghai. Also, there is an airport you can fly here directly. Airport, train station, high speed way, Nanjing port and with our pick-up services, make you much convenient to visit us and goods transported easily to anywhere in the world.
